

K-Love is my absolute favorite radio station and is a vital part of my daily walk with Christ. It's songs are inspiring, encouraging, uplifting- you name it does it. It's the only station I ever listen to. I believe it is an intricate part of my community as an outreach for Christ and more should be done to make people aware of it. Many in my community don't even know the station exists. Because there are already so many that aren't familiar with the station, it would be even worse to have it displaced by an LPFM broadcaster. The K-Love stations (90.1 in Little Rock, AR) serve a huge purpose in every community by displaying Christ's love and helping encourage the public's belief in who He is and who He should be in each of our lives. Moreover, K-LOVE stations need to remain on the current FM translator services.
